

## MyAryaka™ portal makes it easy to manage your network and applications

### Get intuitive and quick to action visibility and analytics in a single pane of glass

Aryaka provides a fully managed SD-WAN delivered as a service for global enterprises that delivers significantly better performance for cloud and on-premises applications for enterprise datacenters, branch offices and remote/mobile employees anywhere in the world.

MyAryaka is Aryaka’s cloud-based orchestration and visibility portal that gives customers the ability to configure, control and manage Aryaka’s Solutions. Ensuring networks are set up, configured and remain optimized at scale in an increasingly distributed IT environment is paramount for any enterprise.

MyAryaka portal also offers deep, end-to-end network and application visibility for your business, and provides APIs for graph data as well as an option to embed URLs which can be used to integrate to customer’s existing visibility tools.

Application-aware network Analysis tool	Status, Performance, Optimization and Reporting
Cloud-based Orchestration	Centralized Configuration and Order Management
Reporting Metrics	Utilization insights, Health and Last Mile Insights
