

### SD-WAN for Global Enterprises

Aryaka offers the only SD-WAN solution for enterprises that enables any application, anywhere in the world. Aryaka’s SD-WAN as a Service alters how enterprises connect sites and users worldwide to business-critical applications to support their digital transformation initiatives. This combines a software-defined, global private network, WAN optimization, application acceleration, multi-cloud connectivity, and visibility in a single solution that is delivered as a service.

Unlike MPLS that takes months to deploy, Aryaka’s SD-WAN can be deployed in hours and also comes with an end-to-end SLA of 99.99% uptime.

Fast Deployment	Application Acceleration	Consume vs. Construct
<ul style="list-style-type: none"> <li>• Deploys in hours</li> <li>• Connect quickly and directly to multiple cloud platforms</li> </ul>	<ul style="list-style-type: none"> <li>• Provide predictable performance for business-critical applications, on-premises and in the cloud</li> <li>• Access resources between clouds seamlessly</li> </ul>	<ul style="list-style-type: none"> <li>• Eliminate capital expenses and reduce operational costs</li> <li>• Benefit from 365/24/7 CCIE-level customer support</li> </ul>
